-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-42, drawn to compositions and methods in which the fluoroalkene consists of C, H and F, classified in class 252, subclass 68.
 - II. Claims 1-42, drawn to compositions and methods in which the fluoroalkene contains atoms other than C, H and F, classified in class 252, subclass 68. If this group is elected, further restriction will be required.

The inventions are distinct, each from the other because of the following reasons: The compositions are capable of supporting separate patents. A disclosure of one of the inventions would not anticipate or make obvious the other invention.

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
3. Having elected one of Groups I and II, further restriction to one of the following inventions is required under 35 U.S.C. 121:
 - A. Compositions comprising fluoroalkenes of three carbons.
 - B. Compositions comprising fluoroalkenes of four carbons and one double bond.
 - C. Compositions comprising fluoroalkenes of four carbons and two double bonds.

The inventions are separate and distinct for the reasons given above.

4. Claims 1-42 are generic to a plurality of disclosed patentably distinct species comprising fluoroalkenes. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of fluoroalkene for initial search and examination, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Because the restriction requirement is relatively complex, no telephone restriction was attempted.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the
